EXPERIENCE

Web development in Konur Academy

I've developed a full-stack (separated front and back). Complex database and CRUD design. The purpose of web-application was to automate the communication of students and their adviser and the reporting system.

Django + Nextjs (& React) + Bootstrap

"Nakhostin" Institute Website

An automated learning management system to monitor students, activity participation and scoring system.

Laravel + TailwindCss + AlpineJs

Official teacher of institute licensed by ITVTO

Certified as official teacher of "nakhostin" academy licensed by "**Iran Technical & Vocational Training**" Organization. As "**web fundamental**", "**Python Language**" teacher.

"Nabla" Academy Website

An automated learning management system to monitor students, plus consultation system

Laravel + TailwindCss + AlpineJs + Echo

EDUCATION

Darolfonoon

currently studying at Darolfonoon high school (talented school) 11 Grade.
